Advantages Over Flaggers

- Can be operated fully automated or manually as needed with a wireless remote.
- Can self-adjust with motion sensors to help increase traffic flow.
- Can be deployed by a single person in minutes.
- Can be stored at your location 24/7/365 reducing your time and cost for scheduling.
- Can reduce your liability by removing your flagger from the road.
- Can work without distractions.
- Can eliminate your overtime expense for flaggers.
